Above operations can be processed on bluetooth devices synchronously

Safety Instructions:

- Never disassemble the Bluetooth Speaker in an attempt to make any repairs as this could result in electrical shock, burns or product failure
- Use extra caution in high temperatures
- The speakers water resistance grade is rated IPX5, which means that the product remains functional only when splashed with water. Please do not submerge under water
- Do not expose the device to direct heat or flame
- Product is not covered under warranty when the product has metal rust, surface spoiling and any other natural oxidation
- Damage, shock, and/or injury can occur if these warnings are not heeded
- Device may become warm while charging
- Make sure to always turn both the product and power outlet off completely before unplugging the speaker
- Make sure the product has plenty of ventilation
- Do not press the buttons too hard as it could damage the product
- Only use dry cloth to keep product clean from dust
- Do not use chemicals on this product
- Never try to repair this product yourself, take it to a certified technician. Trying to remove panels or repairing the unit yourself could lead to electric shock. When the unit is not in use, make sure it is correctly turned off and stored in a cool dry place
- Do not insert foreign objects into the product
- Avoid dropping the product, as harsh impacts could damage the product.

Power On/Off and Pairing:

1. Place speaker within 30 feet of the Bluetooth enabled device
2. Press and hold the ON/OFF button. The white LED will flash rapidly to indicate that the speaker is in Bluetooth pairing mode; You will hear the prompt voice "The bluetooth device is ready to pair"

Note:

- The speaker will power off automatically if not connected in five minutes after being powered on.
- Low battery alert will occur when battery voltage is lower than 3.3V, you will hear the "ding" voice prompt

3. On your Bluetooth enabled smartphone, tablet or media player, navigate to the Bluetooth setting menu, turn on the Bluetooth feature, and search for new devices
4. Search for "JVC SP-SX3BT" on the pairing device. Type Password "0000" or "1234" if requested
5. You will hear the prompt voice " The bluetooth device is connected successfully", the white indicator is instantly on when connected. You can start playing the music on your devices now. White indicator is off during playing for bluetooth mode. White indicator flashes slowly during playing for aux mode.

Note:
The speaker will be automatically reconnected to the last paired Bluetooth device when powered on again.

BACK

Charging:

- Connect the small end of the Micro USB charging cable (included) to the Micro USB port located under the silicon cover of the speaker. Connect the larger end of the cable to your computer's USB port or an AC adaptor (not included)
- The LED indicator will turn red while charging, and goes off when fully charged

For USA and CANADA:

This device complies with part 15 of FCC Rules and Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme à la partie 15 des règles de la FCC et aux normes des CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the ISED radio frequency (RF) Exposure rules as this equipment has very low levels of RF energy.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles des radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'ISDE puisque cet appareil a une niveau tres bas d'énergie RF.

CAN ICES-3 (B) / NMB-3 (B)
This Class B digital apparatus complies with Canadian ICES-003.
(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada)

For USA :

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
